Mini Sound Meter

A tiny meter packed with features

This meter is small and light enough to be carried anywhere. Choose from fast or slow time weightings, min/max readings and A or C decibel frequency weighting scales. All of these settings are simultaneously displayed on a large 1¼" backlit display. Also features hold and auto-power off. Readings are extremely stable and reliable. Reference IEC651 and ANSI S1.4 standards for a type 2 sound meter. Auto-ranging 30 ~ 130 dB(A) with 0.1 dB resolution and an accuracy of ±1.5 dB (Ref. 94 dB @ 1 KHz). Can be calibrated, in compliance with OSHA, using Acoustical Calibrator 850016. Comes ready to use with a windscreen, instructions and 9V battery.

DIM: 8" × 2⅛" × 1½" (200 × 55 × 38 mm). WEIGHT: 6 oz (175 g) including battery.
